

Further Food Waste Tips

For Poster 10

Ongoing pilot studies into setting up of communal compost facilities along with encouraging people to set up their own compost bins.

Enquire of Leeds City Council as to what exactly can go in our various bins.

Keep abreast of composting progress by visiting Incredible Edible Garforth and Food Wise Leeds websites.

Some kitchen waste can be fed to pet animals and wild birds along with their normal recommended diet eg.

Dogs & Cats.....left over meat, chicken and fish with all bones removed plus any none meat surplus they are prepared or trained to eat and is safe for them.

Rabbits, Guinea Pigs and other small mammals.....,veg and fruit peelings.

Wild Birds.....crumbed and softened bread, cakes and biscuits put out at a high enough level to deter rats (eg on top of a wheelie bin)
